

Addendum to BSA local tour permit for Gas Turbine Engine Experiment

I \_\_\_\_\_ and \_\_\_\_\_ (Legal Guardian)  
understand that a miniature turbojet is not a toy and should be handled with utmost care  
and only under the supervision of qualified operators.

We have been advised of our responsibilities for the experiment and have been instructed  
of/and understand all of the safety instructions.

When the experiment and experimental apparatus was designed, utmost care was taken to  
ensure the safety of all those involved in the testing. However, we understand that all  
those involved cannot guarantee a zero failure rate of the engine experiment. Therefore,  
we release the engine manufacture, BSA and the host organization of any liabilities  
resulting from unforeseen failures. Furthermore, we have been advised of our right to not  
to participate in this activity if these conditions are not desirable.
